Procion MX Dyes

* Extremely popular, easy to use dyes for the cold dyeing or printing/painting of cotton, linen, viscose rayon or silk

* Vibrant colours of good all round fastness produced by all application methods, including batik, tie dyeing and shibori dyeing

* Can be used for dyeing in the washing machine

Methods of Dyeing and Printing - Literatures References

Colouration of Cotton Booklet and Colouration of Silk Booklet

These two booklets give methods for using the PROCION MX dyes (and REACTIVE CD dyes) by a wide range of application including: Tie Dyeing, Rapid Dyeing in polythene bag, Shibori Dyeing, Batik, Printing/Painting/Stencilling/Spraying as well as the traditional cold dyebath method.

For more specific and detailed methods of applying the PROCION MX dyes, there are a series of technical information sheets available.

INDIGO

DYEING IN A BUCKET

RECIPE

5 litres water
15g Caustic Soda (solid) or 60gms Washing Soda
10g Hydrotherm DD (Hydros)
15g Indigo VAT 60% Grains

METHOD

(Short method below, courtesy of Delia Copland. Full details in Information Sheet DY19)

1. Pour 5 litres warm water (30ºC) into a bucket

2. Add 15g solid caustic or 60gms washing soda and stir until dissolved. (Note: if dyeing wool or silk use washing soda **not** caustic soda.)

3. Sprinkle 10g Hydrotherm DD (Hydros) into bucket and stir until dissolved.

4. Slowly sprinkle 15g Indigo VAT 60% grains into bucket and stir gently to fully disperse.

5. Cover bucket with cling film and leave 1 hour before using.
